About your exhibition space.

Our events do not include pipe and drape. This means there are no dividing walls between the exhibition spaces. This provides a more open and engaging layout for candidates.

When it comes to laying out your exhibition space, we recommend the use of a pop-up retractable banner. We recommend that for a 3m wide space at the exhibition, two of these banners is sufficient.

Please note there is no guarantee of access to a power point near your exhibition space. The organizers will provide a dedicated area for charging laptops and phones however a limited number of power points means access will be on a first come, first served basis.

Please do let [Olga Moody](#) know if power is required and she can place your exhibition space next to one.

Lead capture at the event.

Each event attendee is issued a personal QR code, which can be scanned at your stand to capture their details quickly and accurately.

To scan attendees, simply download the Healthdaq mobile app to your Apple or Android device before the event.

Android users: If you experience any issues downloading the app from the app store, please use the installation link [here](#) to complete setup.

Please ensure the app is installed on your device prior to arriving at the event.

Login details, including the event code, will be provided on the day and will be linked to each team member's email address supplied by your organisation.

As part of the event package, we will create an exhibitor account for you on the Healthdaq® platform, where you can capture and manage candidate leads from the job fair. When candidates are scanned at your stand, their contact details, professional information and any notes taken are saved directly to your Talent Pool, giving your team immediate access to leads in real time.
